^{*} Current cigarette smoking is defined as having smoked cigarettes on at least 1 day during the 30 days before the survey.

† Includes American Spirit, Basic, Doral, GPC, Kool, Lucky Strike, Parliament, Virginia Slims, and "some other brand."

† Confidence Interval.

§ Cell size less than 35.

^{*}Susceptibility to initiate cigarette smoking among never smokers was defined as providing any response other than "No" to the question, "Do you think that you will try a cigarette soon?" and any response other than "Definitely Not" to the questions, "Do you think you will smoke a cigarette anytime during the next year?" and "If one of your best friends offered you a cigarette, would you smoke it?"

^{*}Students were considered never smokers if they answered, "No" to whether they have tried or experimented with cigarette smoking, even one or two puffs.

[‡] Confidence Interval.

^{*} For example, a lighter, t-shirt, hat, or sunglasses. † Confidence Interval.

^{*}Students who answered "Definitely Yes" or "Probably Yes" were defined as those likely to use or wear it in the future.

*Students were considered as never using tobacco if they answered "No," to whether they have tried or experimented with cigarettes, cigars, smokeless tobacco, tobacco in a pipe, bidis, or kreteks.

Used cigarettes, cigars, smokeless tobacco, tobacco in a pipe, bidis, or kreteks on at least 1 day during the 30 days before the survey.

¹Cell size less than 35.

^{*} For example, a lighter, t-shirt, hat, or sunglasses.

† Students were considered as never using tobacco if they answered "No," to whether they have tried or experimented with cigarettes, cigars, smokeless tobacco, bidis, or kreteks. Tobacco in a pipe was not asked for this question.

‡ Used cigarettes, cigars, smokeless tobacco, tobacco in a pipe, or bidis on at least 1 day during the 30 days before the survey. Kreteks was not asked for this question.

§ Students who answered "Definitely Yes" or "Probably yes" were defined as those likely to use or wear it in the future.

Confidence Interval.

[¶]Question was not asked.

^{*}Students were considered never smokers if they answered, "No," to whether they have tried or experimented with cigarette smoking, even one or two puffs.

† Current cigarette smoking is defined as having smoked cigarettes on at least 1 day during the 30 days before the survey.

‡ Confidence Interval.

§ Question was not asked.

TABLE 23 (continued). Percentage of middle school and high school students who were in the same room or who rode in a car with someone who was smoking cigarettes on ≥ 1 of the preceding 7 days or who think smoke from other peoples' cigarettes is harmful, by smoking status and state —State Youth Tobacco Surveys, 2003–2006

^{*}Students were considered never smokers if they answered, "No," to whether they have tried or experimented with cigarette smoking, even one or two puffs.

† Current cigarette smoking is defined as having smoked cigarettes on at least 1 day during the 30 days before the survey.

‡ Confidence Interval.

^{*}Students were considered never smokers if they answered, "No", to whether they have tried or experimented with cigarette smoking, even one or two puffs.

[†]Current cigarette smoking is defined as having smoked cigarettes on at least 1 day during the 30 days before the survey.

[‡] Students were considered never SLT user if they answered, "No", to whether they have used smokeless tobacco. [§] Current SLT user is defined as having used smokeless tobacco on at least 1 day during the 30 days before the survey.

Confidence Interval.

Cell size less than 35.

Question was not asked.
