#### **Deaths: Final Data for 2010**

#### Supplemental tables

- Table I-1. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by race and sex: United States, 1999-2010
- Table I–2. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2010
- Table I-3. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by race and sex: United States, 1999-2010
- Table I–4. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2010
- Table I–5. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by race and sex: United States, 1999–2010
- Table I–6. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2010
- Table I–7. Number of deaths, death rates, and age-adjusted death rates for ages 15 and over, by marital status and sex: United States, 2010
- Table I–8. Number of deaths, death rates, and age-adjusted death rates for ages 25–64, by educational attainment and sex: Total of 31 reporting states and District of Columbia using 2003 version of U.S. Standard Certificate of Death, and total of 16 reporting states using 1989 version of U.S. Standard Certificate of Death, 2010
- Table I-9. Number of deaths, death rates, and age-adjusted death rates for injury at work, by age, race, and sex: United States, 2010
- Table I-10. Number of deaths, death rates, and age-adjusted death rates for injury at work, by race and sex: United States, 1993-2010

#### Table I-1. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by race and sex: United States, 1999-2010

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys; see Technical Notes. A listing of the *International Classification of Diseases, Tenth Revision* (ICD-10), Second Edition codes included in this table can be found in the note at the bottom of the table]

<sup>&</sup>lt;sup>1</sup>Multiple-race data were reported by 37 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008 and 2009, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

NOTE: Causes of death attributable to injury by firearms include ICD-10 codes \*U01.4, W32-W34, X72-X74, X93-X95, Y22-Y24, and Y35.0.

<sup>&</sup>lt;sup>2</sup>Includes Aleuts and Eskimos.

<sup>&</sup>lt;sup>3</sup>Includes Chinese, Filipino, Hawaiian, Japanese, and other Asian or Pacific Islander persons.

<sup>&</sup>lt;sup>4</sup>Rates are revised using updated intercensal population estimates and may differ from rates previously published; see Technical Notes.

<sup>&</sup>lt;sup>5</sup>For method of computation, see Technical Notes.

Table I–2. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2010

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the International Classification of Diseases, Tenth Revision (ICD-10), Second Edition codes included in this table can be found in the note at the bottom of the table]

<sup>1</sup>Multiple-race data were reported by 37 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008 and 2009, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

NOTE: Causes of death attributable to drug-induced mortality include ICD-10 codes D52.1, D59.0, D59.2, D61.1, D64.2, E06.4, E16.0, E23.1, E24.2, E27.3, E66.1, F11.1-F11.5, F11.7-F11.9, F12.1-F12.5, F12.7-F12.9, F13.1-F13.5, F13.7-F13.9, F14.1-F14.5, F14.7-F14.9, F15.1-F15.5, F15.7-F15.9, F16.1-F16.5, F16.7-F16.9, F17.3-F17.5, F17.7-F17.9, F18.1-F18.5, F18.7-F18.9, F19.1-F19.5, F19.7-F19.9, G21.1, G24.0, G25.1, G25.4, G25.6, G44.4, G62.0, G72.0, I95.2, J70.2-J70.4, K85.3, L10.5, L27.0-L27.1, M10.2, M32.0, M80.4, M81.4, M83.5, M87.1, R50.2, R78.1-R78.5, X40-X44, X60-X64, X85, and Y10-Y14. In 2006, the list of drug-induced codes was modified to include two new ICD-10 codes, Drug-induced acute pancreatitis (K85.3) and Drug-induced fever (R50.2).

<sup>&</sup>lt;sup>2</sup>Includes Aleuts and Eskimos.
<sup>3</sup>Includes Chinese, Filipino, Hawaiian, Japanese, and other Asian or Pacific Islander persons.

<sup>&</sup>lt;sup>4</sup>Rates are revised using updated intercensal population estimates and may differ from rates previously published; see Technical Notes.

<sup>&</sup>lt;sup>5</sup>For method of computation, see Technical Notes.

Table I–4. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2010

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the *International Classification of Diseases, Tenth Revision* (ICD-10), Second Edition codes included in this table can be found in the note at the bottom of the table]

								***		***					

<sup>&</sup>lt;sup>1</sup>Multiple-race data were reported by 37 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008 and 2009, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

NOTE: Causes of death attributable to alcohol-induced mortality include ICD-10 codes E24.4, F10, G31.2, G62.1,G72.1, I42.6, K29.2, K70, K85.2, K86.0, R78.0, X45, X65, and Y15. In 2006, the list of alcohol-induced codes was modified to include a new ICD-10 code, Alcohol-induced acute pancreatitis (K85.2).

<sup>&</sup>lt;sup>2</sup>Includes Aleuts and Eskimos.

<sup>&</sup>lt;sup>3</sup>Includes Chinese, Filipino, Hawaiian, Japanese, and other Asian or Pacific Islander persons.

<sup>&</sup>lt;sup>4</sup>Rates are revised using updated intercensal population estimates and may differ from rates previously published; see Technical Notes.

<sup>&</sup>lt;sup>5</sup>For method of computation, see Technical Notes.

Table I–6. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2010

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the *International Classification of Diseases, Tenth Revision* (ICD-10), Second Edition codes included in this table can be found in the note at the bottom of the table]

<sup>&</sup>lt;sup>1</sup>Figures for origin not stated are included in "All origins" but are not distributed among specified origins.

NOTE: Causes of death attributable to alcohol-induced mortality include ICD-10 codes E24.4, F10, G31.2, G62.1, G72.1, I42.6, K29.2, K70, K85.2, K86.0, R78.0, X45, X65, and Y15. In 2006, the list of alcohol-induced codes was modified to include a new ICD-10 code, Alcohol-induced acute pancreatitis (K85.2).

<sup>&</sup>lt;sup>2</sup>Includes races other than white and black.

<sup>&</sup>lt;sup>3</sup>Multiple-race data were reported by 37 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008 and 2009, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

<sup>&</sup>lt;sup>4</sup>Rates are revised using updated intercensal population estimates and may differ from rates previously published; see Technical Notes.

<sup>&</sup>lt;sup>5</sup>For method of computation, see Technical Notes.

Table I–7. Number of deaths, death rates, and age-adjusted death rates for ages 15 and over, by marital status and sex: United States, 2010

[Rates are per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Population estimates used for computing death rates are based on the American Community Survey adjusted to postcensal July 1, 2010 resident population control totals for the United States; see Technical Notes]

See footnotes at end of table.

# Table I-10. Number of deaths, death rates, and age-adjusted death rates for injury at work, by race and sex: United States, 1993-2010—Con.

[Includes ages 15 and over; excludes figures for age not stated. Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. For a discussion of injury at work, see Technical Notes]

									All o	ther <sup>1</sup>		
		All races			White <sup>1</sup>			Total <sup>1</sup>			Black <sup>1</sup>	
Year	Both sexes	Male	Female	Both	Male	Female	Both	Male	Female	Both sexes	Male	Female
						Age-adjus	sted rate <sup>4</sup>					
1997	2.7 2.8 2.8	5.0 5.2 5.3 5.5	0.5 0.5 0.5	2.7 2.8 2.9 3.0	5.0 5.3 5.4	0.5 0.4 0.5	2.6 2.5 2.7	5.0 4.8 5.3	0.5 0.5 0.5	2.8 2.6 3.0	5.5 5.3 6.0 6.0	0.4 0.5 0.5
1994	2.9 2.9	5.5	0.5 0.5	2.9	5.6 5.5	0.5 0.5	2.8 2.8	5.4 5.4	0.6 0.6	3.1 3.0	6.0	0.6 0.5

<sup>&</sup>lt;sup>1</sup>Includes multiple-race data for 37 states and the District of Columbia in 2010, 34 states and the District of Columbia in 2008 and 2009, 27 states and the District of Columbia in 2007, 25 states and the District of Columbia in 2006, 21 states and the District of Columbia in 2004, and 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

<sup>&</sup>lt;sup>2</sup>Figures include September 11, 2001, terrorism-related deaths for which death certificates were filed as of October 24, 2002; see Technical Notes from National Vital Statistics Reports, "Deaths: Final data for 2001," Volume 52, Number 3.

<sup>&</sup>lt;sup>a</sup>Rates are revised using updated intercensal population estimates and may differ from rates previously published; see Technical Notes.

<sup>&</sup>lt;sup>4</sup>For method of computation, see Technical Notes.
